J. Thomas Burch, Jr.  
President

**The National Vietnam Veterans Foundation, Inc.**, was established for the purpose of assisting American veterans and their families. Since its creation, the Foundation's goals have expanded and now include various programs and projects designed to serve all veterans, especially those who are disabled, unemployed and homeless. The National Vietnam Veterans Foundation is a veterans created and veterans operated charitable organization dedicated to the betterment of our nation's veterans, their families and communities. The Foundation is non-profit and tax exempt under section 501 (c) (3) of the Internal Revenue Code.

The National Vietnam Veterans Foundation provides financial support grants for a variety of needs including food pantry programs, and contributions to hospital patient services and free telephone cards for patient use. The Foundation also operates a national toll-free hot line for veterans service/assistance referral.

The National Veterans Guide is designed to help you identify and locate sources of help for veterans related needs. The National Vietnam Veterans Coalition Foundation is pleased to produce this guide free of charge to all veterans, and acknowledges the generous support of its sponsors for making this guide possible.

For additional information on how you can help, or get help, call  
**NVVF at 1-800-366-1319** or on line at

## INTRODUCTION

This booklet is brought to you as a public service of the National Vietnam Veterans Foundation, and is intended to provide quick reference to agencies and organizations, which help veterans and their families.

The National Veterans Guide is arranged by state. The Department of Veterans Affairs (VA) has regional offices in each state, staffed by professionals who can answer most veteran related questions concerning eligibility, insurance, medical, education and burial. Simply telephone the regional offices in your state.

VA Medical Centers and clinics provide medical and health services to eligible veterans. Merely contact the nearest medical facility for additional information or appointments.

Vet Centers are operated by the VA throughout the country and provide readjustment counseling, and are excellent referrals for emergency transportation, employment or shelter. The National Veterans Guide lists all Vet Centers for your convenience.

At times, many veterans feel lost and alone, without knowing where to go or to whom to call. Today, many national veterans groups and organizations are there to offer help and guidance. They are only a simple telephone call away.

**The American Legion, Disabled American Veterans and Veterans of Foreign Wars** are dedicated to help veterans in need. Each of these fine organizations maintain full-time, professional service officers who are trained in the appropriate rules and regulations and exist to help veterans. These service officers will help you prepare and file a claim for disability benefits free of charge. Their telephone number appear in the guide.

The National Vietnam Veterans Foundation thanks you for your service to our nation.

## Your STATE is here to help veterans

In addition to the federal government's Department of Veterans Affairs, your individual state has offices specifically created to assist veterans. These are usually named, "Office of Veterans Affairs" and their telephone numbers are also listed for your convenience. These state offices have personnel available to answer questions relating to state aid for veterans. They are here to help.

## Before You Get Started

Every member of the armed forces receives a special document at time of discharge. This document, known as the DD-214 is your key to all veteran services and benefits. This document proves your honorable service and is required. It is easy to replace a lost DD-214. If you are the veteran, simply fill out the ***Request Duplicate DD-214 form*** found on page 60 of this Guide, and mail it or fax it to the address or number shown on the form. This is a free service, and in most cases takes just a few weeks.

Our nation is blessed with almost 24 million veterans. It is simply not possible to provide answers to the individual needs of so many without having access to the veterans' personal records which is accessed through the information contained in the DD-214. Help the government help you by obtaining your copy of this important form before contacting the VA or your state's veterans office.

## Death of a Veteran

The nation owes a debt of gratitude to the men and women who faithfully defended our country in times of war and peace and honors them upon their death. The Department of Veterans Affairs provides certain burial benefits for veterans discharged under other than dishonorable circumstances including:

- \* National Cemetery burial
- \* Headstone or grave marker
- \* Flag

A *Presidential Memorial Certificate*, signed by the President of the United States is available to the deceased veteran's next of kin.

For additional information, please contact your local funeral home or telephone the VA at your State's Regional Office located in this guide or at **800-827-1000**.

**Military Funeral Honors** are available to veterans who served honorably. This service is administered by the Department of Defense and includes:

- \* Flag Folding at the funeral
- \* Flag presentation at the funeral
- \* Playing of Taps at the funeral

Military Funeral Honors are arranged through your local funeral director.
